Dear Paige,

I am very glad to inform you that "International Soil and Water Conservation Research" has been accepted for indexing in SCOPUS. Please see the comments from SCOPUS board.

*Thank you for your request to be listed on Scopus. This journal meets all the criteria to be listed in Scopus. The geographical composition of the editorial board and of the authors is good. Articles published in this journal are already well cited and easy available on line.*

Indeed, a good start for the year.

Dear Paige Chyu,

Thanks very much for your email requesting evaluation status of the journal *International Soil and Water Conservation*

The journal is at the moment undergoing evaluation. Please, do contact us again by the end of August 2017 in order to update you on evaluation status at that time.

Best regards,

Review paper on  
**Natural and anthropogenic rates of soil erosion**  
by **Prof. Mark Nearing**

**Highlight**

This article will be of great importance for students to learn the overall pictures of natural and anthropogenic aspects of soil erosion, to scientists to identify the diverse directions of scientific researches, and to applicators to make rational decisions of soil conservation practices.

The paper is published in  
*International Soil and Water Conservation Research*,  
doi:10.1016/j.iswcr.2017.04.001

**Authors**

 **Mark Nearing**  
USDA-ARS Southwest Watershed Research Center  
Adjunct Professor  
University of Arizona, USA.

Dr. Nearing is recognized as an international leader in the areas of erosion processes, erosion modeling, and soil conservation, and recipient of the Hugh Hammond Bennett Award. He has authored more than 170 SCI, peer-reviewed journal articles, and is past-President and on the Board of Directors for the International Soil Conservation Organization, and has led or helped in the organization of many international meetings on soil erosion and conservation.
